

## Set A Budget

- Decide on your budget, even a rough estimate is fine. You can refine it later.

## Your Prep Work

- Create a list of must-have features and your wish list.
- Collect inspiration from Pinterest, Houzz, magazines, and websites.
- Take rough measurements and photos of your existing bathroom.

## 1st Design Appointment

- Review your floor plan and layout options.
  - Discuss plans & options for the tub and/or shower.
  - Decide on flooring: keep or replace?
  - Plan the project timeline.
- Select your vanity
  - Wood species, door style and finishes.
  - Choose a cabinetry line (essential to begin design).
  - Explore built-in storage.
  - Pick countertop materials.
  - Discuss accessories like moldings and accents.
  - Select faucets, flooring, tile, and hardware.
  - Get our list of preferred local contractors for installation.
  - Schedule a professional measure.

## 2nd Design Appointment

- Review the updated design, including floor plans and visuals.
- Review estimated cost of materials.
- Make adjustments as needed.

## 3rd Design Appointment

- Review final design.
- Match each item on the bill of materials with the floor plan, elevations, and visuals.
- Approve cabinetry wood species and finish.
- Approve any Special Order agreements.
